RE: Site Inspections - Farmers Knob Area - DOE/017/001, Lewis
Wilcox, Trackyte No.s 20 & 22 - DOE/017/006, Energy Fuels
Nuclear, Trackyte No.s 1 & 3; Blitz 1,4,5,6, & 7 -
DOE/017/014, Associated Energy Corp., Farmers Knob Mine

On March 18, 1987, Frank Filas, Frank Jensen, and Dave Wham inspected the Farmers Knob area. The hills are honeycombed with abandoned uranium adits. All of the sites are less than two acres in size. There was no evidence of recent assessment work at any of the above referenced claims. The open adits represent a safety hazard to the public, but this a relatively small risk due to the remote location.
